Dear Friend of Canopy,

We're honored to present Hope Jahren, acclaimed international scientist, plant researcher, and best-selling author of *Lab Girl*, for an evening of inspiration, discovery, and—of course!—trees.

We hope you'll mark your calendar for Saturday, April 7, and join us as Dr. Jahren takes us into her world as a scientist, illuminating the wonder of trees, the value of our connection with the natural world, and the importance of investing in our local urban forests.

"Plants are much more than food, medicine, and wood—they form the living, striving foundation of Planet Earth."
- Hope Jahren

We also invite you to become a sponsor for The Wonder of Trees. By underwriting this unique event, you'll have the opportunity to:

- **Take action locally** to bring nature into neighborhoods, nurture community wellbeing, and grow a thriving urban forest by supporting Canopy's programs.
- Treat your friends and family to an inspirational evening with an award-winning scientist and passionate environmental communicator.
- **➣ Introduce people in your network** to Canopy's mission and impact.
- **➣** Connect with other community leaders who share your commitment to a greener, more equitable future.

The enclosed materials provide more information about Hope Jahren, her bestselling book, and leadership opportunities for this exciting event.

Maika and I look forward to discussing the event with you and ensuring you'll benefit fully from your investment. Feel free to call me at 650-964-6100 ext. 2, or we'll reach out to you in the next few weeks.

Warmest regards,

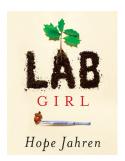

Catherine Martineau
Executive Director

THE WONDER OF TRES

A BENEFIT FOR CANOPY WITH LAB GIRL AUTHOR HOPE JAHREN, APRIL 7 2018

LEADERSHIP OPPORTUNITIES

Urban Forest Visionary - \$25,000

- Recognized as a presenting sponsor, with superior name placement in promotional materials
- * Exclusive Apple Park tree talk and walk with Dave Muffly, Senior Arborist for Apple (up to 15 participants, to be scheduled based on mutual availability)
- Private tree walk experience with legendary arborist Kevin Raftery (up to 30 participants, to be scheduled based on mutual availability)
- 6 invitations to April 7 morning hike and picnic with Hope Jahren (or equivalent weather permitting!). If you're unable to attend, your contribution will sponsor young Canopy interns or volunteers to hike with Hope.
- * 10 invitations to private VIP cocktail hour with Hope Jahren on April 7, prior to main dinner event
- 10 superior or premium dinner seats (1 large table)
- * 10 hardcover copies of *Lab Girl*, signed and personalized by the author

Tree Canopy Champion - \$15,000

- Superior name placement in promotional materials
- * 10 invitations to private tree walk experience with legendary arborist Kevin Raftery (to be scheduled based on mutual availability)
- * 4 invitations to April 7 morning hike and picnic with Hope Jahren (or equivalent weather permitting!). If you're unable to attend, your contribution will sponsor young Canopy interns or volunteers to hike with Hope.
- 10 invitations to private VIP cocktail hour with Hope Jahren on April 7, prior to main dinner event
- 10 superior or premium dinner seats (1 large table)
- * 10 hardcover copies of *Lab Girl*, signed and personalized by the author

Woodland Leader - \$10,000

- Premium name placement in promotional materials
- 10 invitations to private tree walk experience with legendary arborist Kevin Raftery (to be scheduled based on mutual availability)
- * 2 invitations to April 7 morning hike and picnic with Hope Jahren (or equivalent weather permitting!). If you're unable to attend, your contribution will sponsor young Canopy interns or volunteers to hike with Hope.
- 10 invitations to private VIP cocktail hour with Hope Jahren on April 7, prior to main dinner event
- * 10 superior or premium dinner seats (1 large table)
- * 10 hardcover copies of *Lab Girl*, signed by the author

Orchard Explorer - \$5,000

- Preferred name placement in promotional materials
- Name acknowledged on on-site event signage
- Quarter page advertisement in event program
- * 8 invitations to private VIP reception with Hope Jahren
- * 8 premium dinner seats (1 small table)
- * 8 copies of *Lab Girl*, signed by the author

Grove Steward - \$2,500

- Name placement in promotional materials
- * 4 preferred dinner seats
- ♦ 4 copies of *Lab Girl*, signed by the author

Planting Partner - \$1,000

- Name acknowledged in event program
- 1 invitation to private VIP reception with Hope Jahren
- 1 premium dinner seat
- 1 Lab Girl book

Oak Friend - \$500

- Name acknowledged in event program
- 1 preferred dinner seat
- * 1 Lab Girl book

REGULAR TICKETS AND TABLES

- * Regular Dinner Tickets \$250 / each
- * Small table (8 seats) \$2,000
- * Large table (10 seats) \$2,500

YOUR LEADERSHIP MAKES A DIFFERENCE

Your sponsorship at any level will demonstrate your commitment to community wellbeing and to a thriving urban forest. Your support will:

- Bring nature into neighborhoods by planting and caring for trees in areas where greenery is scarce.
- Nurture resilient urban ecosystems where people, wildlife, and nature thrive.
- * Empower youth as stewards of the environment by providing hands-on, outdoor lessons for school kids and in-depth internships for teens and young adults.
- Bring together people of all ages and backgrounds to work towards a greener, more equitable future.

We look forward to partnering with you!

EVENT OVERVIEW

THE EXPERIENCE

Enjoy an elegant and interactive evening of wine, dinner, friendship, and exploration in a stunning new venue.

Hosted by Canopy and emceed by Santa Clara County Supervisor Joe Simitian, The Wonder of Trees will be an elegant evening of discovery, inspiration, entertainment, and community.

The gala will be hosted at Hotel Nia, a brand new nature-inspired Autograph Collection hotel opening in Menlo Park. VIP guests will have ample opportunity to mingle during a festive champagne reception prior to the main event. During dinner, guests will enjoy a 3-course meal, award-winning local wine, and time to connect with one another. As a dynamic program unfolds, guests will learn about Canopy's mission to plant and care for trees where people need them the most, and get a first-hand look at Canopy's hands-on education programs. Along the way, we'll follow Hope Jahren into her world as a scientist, uncovering the secrets of roots and soil beneath our feet, the canopy above our heads, and how the lives of plants and people are deeply intertwined.

THE DETAILS

Date: Saturday, April 7, 2018

Time: 6:00 - 9:00 PM, Private VIP reception at 5:15pm

Location: Hotel Nia, Menlo Park

THE AUDIENCE

Canopy events attract high net worth Bay Area residents who are engaged and influential in their communities.

As a trusted community resource, Canopy works closely with community leaders, government officials, grassroots partners, local businesses, and neighborhood residents throughout the Midpeninsula. Our volunteers, donors, and organization leaders represent diverse sectors and backgrounds. What they share is a passion for bringing nature into local communities and a commitment to a vibrant urban forest for all.

Our roots are in Palo Alto, where much of our donor community resides. In East Palo Alto, where Canopy has worked for over 10 years, we have strong partnerships with City staff, school administrators, community-based organizations, and residents. Canopy also has strong partnerships in Menlo Park, Mountain View, and Los Altos. Our dedicated volunteers join us from around the Bay Area—San Jose, Cupertino, Redwood City, San Francisco, Redwood City, and dozens of communities in between.

THE IMPACT

By growing our urban forests, Canopy creates healthier communities where people and nature thrive.

Trees improve human health and quality of life in profound ways. In addition to their environmental benefits, studies show that trees slow heartbeats, lower blood pressure, and relax brain wave patterns. Students with a view of trees outside their classroom show improved focus and better retention. Employees who look out office windows onto trees do better in their jobs. From cleaning our air to calming our minds and enhancing our senses, a healthy urban forest supports our most basic human needs, contributing to urban environments where people and nature thrive.

Over two decades, Canopy has partnered with local communities to plant more than 4,000 urban trees, and empowered thousands of youth and adults to explore and connect with nature in their neighborhoods. Through community tree plantings, citizen science surveys, hands-on environmental education lessons, and in-depth teen internships, Canopy brings people of all backgrounds together to work towards healthy trees and healthy communities.

CANOPY IS A RESPECTED ADVOCATE FOR THE PENINSULA'S URBAN FORESTS

For two decades, Canopy has grown, protected, and advocated for an essential community resource: urban trees. Our impact is far-reaching, in local communities and beyond.

Twenty years ago, Canopy's founders became a voice for the trees of Palo Alto. Canopy's early research, advocacy, and grassroots efforts helped create and sustain Palo Alto's vibrant urban forest and tree protection policies, which have served as a model for cities around the world.

Ten years ago, Canopy put down roots in neighboring East Palo Alto, planting and caring for trees in schools, parks, and neighborhoods where greenery was sorely needed.

Today, Canopy's programs have a direct impact on the health and wellbeing of communities throughout the Midpeninsula. In 2017 alone, with the help of our dedicated volunteers, donors, and partners, we:

- Planted over 350 new trees and tended more than 2,500 young trees across dozens of community sites;
- Reached more than 1,500 school kids with high-quality, hands-on environmental science lessons;
- Provided opportunities for more than 5,000 people to explore, steward, and celebrate our local urban forests.

Our vision is a day when every resident of the Midpeninsula can step outside to walk, play, and thrive under the shade of healthy trees. We welcome the opportunity to partner with you in bringing this vision to life!

CANOPY HAS A TRACK RECORD OF SUCCESSFUL EVENTS.

Canopy has a history of bringing inspirational leaders, scientists, and nature stewards to share their expertise and call-to-action with our diverse audience. Over the last decade, we have hosted:

- * 2006 Wangari Maathai, 2004 Nobel Peace Laureate and founder of the Greenbelt Movement
- * 2008 Sir Thomas Pakenham, prize-winning author, historian, and arborist
- * 2009 E.O. Wilson, American biologist, researcher, theorist, naturalist and author
- 2011 Richard Louv, Author, journalist, and nature advocate
- * 2013 Gretchen Daily, award-winning researcher, biologist, and author

We consistently deliver exceptional and memorable event experiences for guests and sponsors alike. Our last fundraising gala in 2013 integrated over 50 sponsors, 220 attendees, and a strong foundation of media coverage. Net proceeds of \$122,000 were raised to benefit Canopy's "Healthy Trees, Healthy Kids!" Initiative, bringing tree planting and hands-on nature education to schools and neighborhoods where they were most needed.

HOPE JAHREN, INTERNATIONALLY ACCLAIMED SCIENTIST AND WRITER

Hope Jahren is an award-winning geochemist and paleobiologist who combines cutting-edge research in plant biology and earth sciences to uncover the secrets of the natural world.

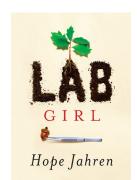

Dr. Jahren has been pursuing independent research since 1996, when she completed her PhD at University of California Berkeley and began teaching and researching first at the Georgia Institute of Technology and then at Johns Hopkins University.

She is the recipient of three Fulbright Awards and is one of four scientists—and the only woman—to have been awarded both of the Young Investigator Medals given within the Earth Sciences. From 2008 to 2016, she was a tenured professor at the University of Hawaii in Honolulu, where she built the Isotope Geobiology Laboratories, with support from National Science Foundation, the Department of Energy, and the National Institutes of Health. She currently holds the J. Tuzo Wilson professorship at the University of Oslo, Norway.

LAB GIRL, HOPE JAHREN'S BEST-SELLING BOOK

An illuminating debut memoir of a woman in science, a moving portrait of a longtime friendship, and a stunningly fresh look at trees and plants that will forever change how you see the natural world.

Geobiologist Hope Jahren has spent her life studying trees, flowers, seeds, and soil. *Lab Girl* is her revelatory treatise on plant life but it is also a celebration of the curiosity, humility, and passion that drive every scientist.

"The leaves of the world comprise countless billion elaborations of a single, simple machine designed for one job only—a job upon which hinges humankind." - Hope Jahren, Lab Girl

In these pages, Hope takes us back to her Minnesota childhood, where she spent hours in unfettered play in her father's college laboratory. She tells us how she found a sanctuary in science, learning to perform lab work "with both the heart and the hands." She introduces us to Bill, her

brilliant, eccentric lab manager. She opens our eyes to the beautiful, sophisticated mechanisms within every leaf, blade of grass, and flower petal. And she extends the mantle of scientist to each one of her readers, inviting us to join her in observing and protecting our environment. Warm, luminous, compulsively readable, *Lab Girl* vividly demonstrates the mountains that we can move when love and work (and planting trees!) come together.
